Press Release

Super Sevens Series

We are delighted to announce the launch of the 2011 Super Sevens Series.

Faced with the prospect of being without an organised Series this year, the members of the core sides that competed in last year's national series have joined forces to become stakeholders in a series that will be administered and run by themselves - The "Super Sevens Series".

Following some extensive negotiations the Series will run in conjunction with 3 specialist 7s festivals commencing with Rugby Rocks at the Richmond Athletic Ground on June 4th.

This will be followed by West Country 7s in Keynsham on June 18th and the final leg will be at the Newquay Surf 7s on July 2nd.

The 9 core sides Apache, British Army, Gilbert Pups, HFW Wailers, Koru Kamikaze, Olorun Sharks Ronin Impact, Samurai Barracudas and the White Hart Marauders will be joined at each venue by three sides invited by the event organisers to form a twelve team event playing for the event prize fund and series points.

Negotiations are still underway with a number of Series sponsors who will be announced shortly.

The management team are committed to running this specialist series which we believe is an essential platform for amateur teams to compete at the highest level and continue to assist with the development of young talent and the game of 7s in general.
